Atlantic Coast major port observer sites

One synthetic water position for each of 24 East Coast ports in the 2024 USACE top 150

Port · 2024 rank

- B1 · Searsport ME — rank 147 · 44.449174° N, -68.906964° W
- B2 · Portland ME — rank 75 · 43.648779° N, -70.247938° W
- B3 · Portsmouth NH — rank 140 · 43.082207° N, -70.744383° W
- B4 · Boston — rank 57 · 42.353758° N, -71.023990° W
- B5 · Providence — rank 73 · 41.809669° N, -71.389192° W
- B6 · New Haven — rank 51 · 41.270076° N, -72.912766° W
- B7 · Bridgeport CT — rank 98 · 41.171151° N, -73.180960° W
- B8 · Port Jefferson NY — rank 105 · 40.955314° N, -73.083954° W
- B9 · New York and New Jersey — rank 4 · 40.681022° N, -74.059726° W
- B10 · South Jersey — rank 32 · 39.939082° N, -75.121092° W
- B11 · Philadelphia — rank 18 · 39.889620° N, -75.138211° W
- B12 · Wilmington DE — rank 70 · 39.714252° N, -75.503412° W
- B13 · Baltimore — rank 15 · 39.228619° N, -76.559072° W
- B14 · Virginia Hampton Roads — rank 8 · 36.948842° N, -76.330821° W
- B15 · Morehead City — rank 136 · 34.718528° N, -76.701729° W
- B16 · Wilmington NC — rank 62 · 34.187929° N, -77.957108° W
- B17 · Charleston — rank 24 · 32.780492° N, -79.931477° W
- B18 · Savannah — rank 12 · 31.948621° N, -80.850187° W
- B19 · Brunswick GA — rank 81 · 31.130239° N, -81.489289° W
- B20 · Jacksonville — rank 36 · 30.406286° N, -81.403695° W
- B21 · Port Canaveral — rank 71 · 28.414292° N, -80.610523° W
- B22 · Palm Beach — rank 109 · 26.768536° N, -80.051309° W
- B23 · Port Everglades — rank 28 · 26.089549° N, -80.119784° W
- B24 · PortMiami — rank 54 · 25.770290° N, -80.182553° W

Port scope follows the U.S. Army Corps of Engineers 2024 Leading U.S. Ports table: mainland Atlantic seaports ranked in the top 150, excluding Albany because the current coarse water mask does not resolve the Hudson River port reach by total tonnage. Site coordinates are the nearest water-cell centers to the listed approximate port-area anchors in the project's 500 m Natural Earth mask. River-port points are harbor or entrance approaches where the coarse mask does not resolve every inland channel. This map is for experiment planning, not navigation.
